TALENTED YOUTH IN INDUSTRY

REMINDER 2022-23

[Click to Submit](#)

Hello Talented Youth in Industry Club Teachers and Students

Here is a recap of our exciting program challenges! Don't miss your chance to participate in this program, which promotes teamwork and gives you the chance to learn about future career pathways!

"My students love to be exposed to different areas of industry. This helps them develop a more well-rounded understanding and prepare for future leadership roles." Nadine Diab, Applied Technology High School - MBZ City

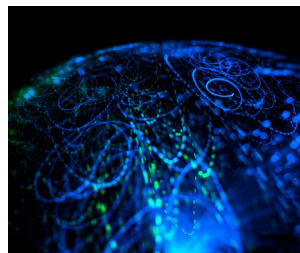

WHAT ARE THE TALENTED YOUTH IN INDUSTRY CHALLENGES?

ADNOC DISTRIBUTION
Propose a concept for a new and innovative retail area in an ADNOC Oasis store.

ADNOC SOUR GAS
Create a science meets art project that explores natural gas and sulphur.

ADNOC GLOBAL TRADING
Create an explainer video about the benefits of global trade for a country of your choice.

CERTIFICATES AVAILABLE ON COMPLETION! COLLECT THEM ALL!

Get working on your submissions and stand the chance to win a unique job shadowing experience in the summer holidays!

WHAT TO SUBMIT

- All of our challenges require you to submit a short video presenting and discussing your work.
- Find more details in your Talented Youth in Industry Club workbooks!

HOW TO SUBMIT

- You can upload your video to the **ADNOC STEM For Life portal**.
- Alternatively, if your video file is too big, provide a link to the video on YouTube, Vimeo, etc. via the portal.

SUBMISSION DEADLINE

Please take note that we have extended the deadline for all TYI submissions to June 15.

This gives you some extra time to work on your solutions to the different challenges!
